

## ***Russelia sarmentosa* Jacq.**

**Family:** Plantaginaceae

**Common name:** Firecracker plant

**Local name:** Tarokphul

**Importance:**

- It is a good choice for outdoor landscapes and is also well-suited for use in outdoor containers and hanging baskets.
- It is used as a medicine and has environmental uses.
- It has anti-inflammatory and analgesic properties.
- Is commonly used to hide unattractive retaining walls or fences because they grow quickly and have dense foliage.
